About Transitions

Belgian artist Stephanie Cime's collection "Transitions" is a deeply introspective and transformative body of work that celebrates the power of guided coincidences and the slow, meditative process of creation.

Through each piece in the collection, Cime invites viewers to engage with the transformative power of art and the human capacity for growth and change. Each work is a reflection of the artist's own journey of transition and is created through a process that is hypnotic and almost like watching a butterfly emerge from its cocoon.

Cime allowed herself to be guided by the coincidences and chance encounters that arose during the creation of each piece. The slow and meditative process of creation is evident in the works themselves, which exude a sense of calm and introspection.

Through her work, Cime hopes to inspire others to embrace the transformative power of guided coincidences and to find the courage to transition.

Each piece invites the viewer to engage with it on a deep and emotional level, connecting with the transformative power of guided coincidences and the slow, meditative process of creation.

"Transitions" is a celebration of the human capacity for growth and change and the transformative power of art to inspire and transform.

Personal Statement

"Transitions" is a deeply personal and introspective body of work that reflects my own journey of transition and growth. Through this collection of works, I sought to embrace the transformative power of guided coincidences and the slow, meditative process of creation.

Each piece in "Transitions" was created through a process that was hypnotic and almost like watching a butterfly emerge from its cocoon. I allowed myself to be guided by the chance encounters and coincidences that arose during the creation of each piece, creating works that are a reflection of my own journey of transition from the person I had to be to the person I wanted to be.

Through my work, I hope to inspire others to embrace the transformative power of guided coincidences and to find the courage to transition from the person they had to be to the person they want to be. "Transitions" is a celebration of the human capacity for growth and change and the transformative power of art to inspire and transform.
